1. Executive Summary

Project Overview

Fulcrum Consulting (www.fulcrumconsulting.in) is an independent Corporate Real Estate advisory firm based in Bengaluru, India. The existing website is a React + Vite + TypeScript + Tailwind CSS single-page-application with PHP backend APIs, currently deployed on Netlify/Vercel.

Objective

The client has submitted a set of change requests to refine branding, restructure the services page, replace the Advisory section with Blog & Newsletter modules, update team member bios and photos, and update the footer copyright text.

Business Purpose

- Strengthen brand consistency via updated color palette and high-resolution logo
 - Simplify content architecture by consolidating services into a single set with individual landing pages
 - Introduce content marketing capabilities (blog articles, newsletter sign-up)
 - Refresh team profiles with updated copy and new professional photographs
 - Maintain professional credibility through cohesive visual identity
-

2. Current Project Understanding

Existing Pages

Page	Route	File
Landing / Home	/	Landing.tsx
About	/about	About.tsx
Services	/services	Services.tsx
Framework	/framework	Framework.tsx
Advisory	/advisory	Advisory.tsx
Contact	/contact	Contact.tsx
Privacy	/privacy	privacy.tsx

Existing Sections (Landing Page)

- Hero with animated 3D spherical background (Three.js)
- Core Proposition & Pillars (4 cards)
- Strategic Intent section
- The Fulcrum Framework (4-step process)
- Areas of Advisory (5 advisory domains with icons)
- About / Team Member spotlight (Geetika Bindana)
- Fulcrum Identity section
- Call to Action (Advisory Engagement)
- Footer

Existing Navigation

Desktop: Intent → About → Services → Framework → Advisory → Contact (button)

Mobile: Hamburger menu → Framework, Advisory, About, Services, Contact

Existing Branding

- **Primary Color:** #1A2C42 (Navy)
- **Accent Color:** #B8860B (Dark Goldenrod)
- **Light BG:** #F5F5F5
- **Fonts:** Playfair Display (serif), Inter (sans-serif)
- **Logo:** fulcrum.webp (18KB, appears low resolution per client)

Existing Content

- Firm overview, vision & mission on About page
- 3 team members: Geetika Bindana (Director), Arun Kumar Katte (Senior Manager), Aditya Singh (Assistant Manager)
- 9 services in a grid + 6 expertise areas + 4 "Explore Our Services" cards
- Advisory section with 5 domain areas
- Contact form (Name, Email, Message) → PHP/PHPMailer backend
- Footer with company name, address, LinkedIn link, copyright "2026 Fulcrum Consulting Global"

Existing Backend

- Single PHP API endpoint: [contact.php](#) (SMTP via Zoho)
- PHPMailer library for email delivery
- Database config file exists ([db.php](#)) but not actively used

3. Scope of Work

In Scope

#	Change Request	Source (PDF Page)
1	Replace logo with a high-resolution version	Page 1
2	Update brand color palette (3 new colors)	Page 1
3	Increase contrast of moving spherical visual (hero background)	Page 1
4	Limit website to only 2 fonts	Page 1
5	Completely redo the Services landing page layout	Page 2
6	Consolidate to one set of services (remove duplicates)	Page 2
7	Add separate landing page for each service with detailed content + images	Page 2
8	Remove "Our Expertise" and "Explore Our Services" sections	Page 2

9	Make Services page layout match the Framework landing page style	Page 2
10	Remove "Areas of Advisory" section entirely	Page 3
11	Replace Advisory section with Blog articles module	Page 3
12	Replace Advisory section with Newsletter landing page	Page 3
13	Add newsletter sign-up form	Page 3
14	Update footer copyright from "2026 Fulcrum Consulting Global" to "FULCRUM CRE ADVISORS"	Page 4
15	Update team member bios (5 members with new write-ups)	Pages 5–7
16	Update professional photographs (pending from client)	Page 7

Out of Scope

- Complete website redesign / rebuild
- CMS or admin panel development
- Payment integration
- User authentication / login
- Multi-language support
- E-commerce functionality

- Mobile app development
- Backend database schema changes (unless required by blog/newsletter)
- Social media integrations beyond LinkedIn
- Analytics / tracking setup

4. Functional Requirements

FR-01: High-Resolution Logo Replacement

Field	Detail
Description	Replace current fulcrum.webp logo with a higher resolution version throughout the website
Purpose	Improve visual quality and brand presentation
Priority	■ High
Dependencies	Client to provide high-resolution logo file (SVG preferred)

FR-02: Brand Color Palette Update

Field	Detail
Description	Update all text and UI element colors to match the new palette: Primary Navy Blue #2F4A7F , Accent Gold #C9A14A , Deep Navy Variant #D8B66A
Purpose	Align website colors with the logo's color scheme for visual consistency
Priority	■ High

Dependencies	None (colors specified in PDF)
--------------	--------------------------------

FR-03: Hero Background Contrast Enhancement

Field	Detail
Description	Increase the contrast/visibility of the animated 3D spherical visual in the hero section
Purpose	Make the hero visual more impactful and visible to visitors
Priority	■ Medium
Dependencies	FR-02 (new colors may affect sphere visuals)

FR-04: Font Consolidation

Field	Detail
Description	Audit and enforce only 2 fonts across the entire website. Currently using Playfair Display + Inter — confirm these are the 2 fonts to keep
Purpose	Typographic consistency and faster load times
Priority	■ Medium
Dependencies	Client confirmation on which 2 fonts to retain

FR-05: Services Landing Page Redesign

Field	Detail
Description	Completely redo the Services landing page layout to match the Framework page's visual style (clean, structured, step-by-step layout)

Purpose	Simplify services presentation, reduce content overload
Priority	■ High
Dependencies	FR-06, FR-07, FR-08

FR-06: Service Consolidation

Field	Detail
Description	Merge the current 3 separate sections (9 services grid + 6 expertise cards + 4 explore-services cards) into a single unified set of services
Purpose	Eliminate redundancy and content overload; "right now too many content is written"
Priority	■ High
Dependencies	Client to define the final list of services and provide SEO keywords

FR-07: Individual Service Landing Pages

Field	Detail
Description	Create a separate landing page for each service with detailed content alongside professional images
Purpose	Provide in-depth information for each service offering, improve SEO
Priority	■ High
Dependencies	FR-06 (final service list), content and images from client

FR-08: Remove Expertise & Explore Sections

Field	Detail
Description	Remove "Our Areas of Expertise Include" section and "Explore Our Services" section from the Services page
Purpose	Consolidate into a single cohesive services section
Priority	■ High
Dependencies	FR-05 (part of redesign)

FR-09: Remove "Areas of Advisory" Section

Field	Detail
Description	Remove the entire "Areas of Advisory" section from both the Landing page and the dedicated Advisory page
Purpose	Make room for Blog and Newsletter modules
Priority	■ High
Dependencies	FR-10 (replacement content must be ready)

FR-10: Blog Articles Module

Field	Detail
Description	Implement a blog articles landing page to replace the Advisory section. Blog examples referenced in PDF: two external blog links provided as design inspiration
Purpose	Content marketing, thought leadership, SEO value
Priority	■ High
Dependencies	Blog content from client, design approval, potentially backend for blog data

FR-11: Newsletter Module

Field	Detail
Description	Implement a newsletter landing page with sign-up form. A newsletter example link ("News") was provided in the PDF as design reference
Purpose	Lead generation, audience engagement
Priority	■ High
Dependencies	Newsletter platform/workflow decision, backend API for subscriptions

FR-12: Newsletter Sign-up Form

Field	Detail
Description	Add a form for visitors to sign up for newsletters
Purpose	Capture email leads for newsletter distribution
Priority	■ High
Dependencies	FR-11, email marketing service integration decision

FR-13: Footer Copyright Update

Field	Detail
Description	Change copyright line from "2026 Fulcrum Consulting Global" to "FULCRUM CRE ADVISORS"
Purpose	Reflect updated company branding/legal name
Priority	■ Low

Dependencies	None
---------------------	------

FR-14: Team Member Bio Updates

Field	Detail
Description	Update all team member profiles on the About page with new write-ups. 5 team members now: (1) Geetika Bindana – Director, Business Development; (2) Arun Kumar Katte – Senior Manager, Business Development; (3) Aditya Kumar – Assistant Manager, Business Development; (4) Anfal Ahemed – Manager, Transaction & Advisory; (5) Niha Maria Paul – Marketing & Research Associate
Purpose	Accurate team representation with professional bios
Priority	■ High
Dependencies	Content provided in PDF (complete), photos pending

FR-15: Team Professional Photos Update

Field	Detail
Description	Replace all existing team photos with new professional photographs
Purpose	Professional visual presentation
Priority	■ High
Dependencies	Client to share new professional photos (noted as "will be shared shortly")

5. Non-Functional Requirements

Category	Requirement
----------	-------------

Performance	All pages must load within 3 seconds on 3G mobile; Lighthouse performance score $\geq$ 85
Responsiveness	Full responsive design across Desktop (1920px), Laptop (1366px), Tablet (768px), Mobile (375px)
Accessibility	WCAG 2.1 Level AA compliance; proper ARIA labels, alt texts, keyboard navigation
SEO	Proper meta tags, heading hierarchy (single H1/page), semantic HTML, new service/blog pages indexed
Maintainability	Clean component structure; blog/newsletter data separated from UI; reusable components
Scalability	Blog module must support adding new articles without code changes; newsletter list growth
Browser Compatibility	Chrome 90+, Firefox 90+, Safari 15+, Edge 90+
Font Loading	Only 2 fonts loaded; use <code>font-display: swap</code> for performance

6. Branding Requirements

Logo

Item	Current	Required
File	fulcrum.webp (18KB)	High-resolution version (SVG preferred, or 2x/3x WebP/PNG)
Placement	Header (all pages)	Same — but must be crisp on all screen densities

Color Palette

Token	Current Value	New Value	Usage
-------	---------------	-----------	-------

brand-primary	#1A2C42	#2F4A7F	Primary navy blue — headings, nav text, body text, dark backgrounds
brand-accent	#B8860B	#C9A14A	Accent gold — labels, dividers, hover states, CTAs
New	—	#D8B66A	Deep navy variant (lighter gold) — secondary accents, subtle highlights
brand-light	#F5F5F5	#F5F5F5 (unchanged)	Light backgrounds
brand-offwhite	#F9FAFB	#F9FAFB (unchanged)	Off-white surfaces
brand-slate	#64748B	#64748B (unchanged)	Body text, descriptions

[!IMPORTANT] The PDF labels #D8B66A as "Deep Navy Variant" but it is actually a warm gold tone, not navy. Clarification needed from client on intended usage.

Typography

Font	Role	Current	Change
Playfair Display	Headings, serif elements	■ In use	Confirm retention
Inter	Body text, sans-serif	■ In use	Confirm retention
Other fonts	—	None found in codebase	Audit for inline/hardcoded font families

Icon Style

- Currently using **Lucide React** icons consistently
- No change requested; maintain current icon library

Visual Consistency

- All color references in Tailwind config, CSS variables, and inline styles must be updated
- Ensure no hardcoded legacy colors remain
- The 3D hero sphere colors should align with the new palette

Theme

- Current: Professional, corporate, premium dark-navy & gold
- Requested: Same theme, but refined with the new color values

7. UI / UX Requirements

Layout Improvements

Area	Change
Services page	Complete layout redesign to match Framework page style
About page	Expand from 3 to 5 team members; alternating photo/text layout
Landing page	Remove Advisory section; add Blog + Newsletter sections

Component Redesigns

Component	Change
-----------	--------

Services grid	Replace 3 separate grids with a single, clean service card layout
Advisory section	Remove entirely; replace with Blog + Newsletter
Footer	Update copyright text

Hero Section Improvements

Item	Change
3D Sphere	Increase contrast/opacity so the visual is more prominent
Colors	Update sphere colors to match new palette

Navigation Updates

Item	Change
"Advisory" link	Remove from navigation
"Blog" link	Add to navigation (new)
"Newsletter" link	Add to navigation or as sub-item

Visual Hierarchy

- Services page must follow a clean, step-by-step visual flow (like Framework page)
- Individual service pages need clear hierarchy: title → description → image → CTA

CTA Improvements

- Newsletter sign-up should have a prominent CTA
- Individual service pages should link back to Contact

Responsive Behavior

- All new pages/components must work across Desktop, Tablet, Mobile
 - Blog article cards should stack on mobile
 - Newsletter form should be full-width on mobile
-

8. Page-wise Requirement Breakdown

8.1 Landing Page (/)

Current State: - Hero (3D sphere + tagline), Core Proposition, Strategic Intent, Fulcrum Framework, Areas of Advisory, About (Geetika), Fulcrum Identity, CTA, Footer

Required Changes: | Change | Detail | |-----|-----| | Logo | Replace with high-res version in header | | Colors | Update all brand colors globally | | Hero sphere | Increase contrast/visibility | | Areas of Advisory section | **Remove entirely** | | Blog section | **Add** — Blog articles module (replaces Advisory) | | Newsletter section | **Add** — Newsletter landing area with sign-up form | | About section | Update Geetika's bio with new write-up from PDF |

New Components: - Blog article card component (for landing page preview) - Newsletter CTA section - Newsletter sign-up form

Removed Components: - AdvisoryGrid usage in Landing page (lines 293–322)

Modified Components: - HeroScene (QuantumScene.tsx) — contrast adjustment - Footer — copyright text

Dependencies: FR-02, FR-03, FR-09, FR-10, FR-11, FR-14

Acceptance Criteria: - ☐ Advisory section is no longer visible on landing page - ☐ Blog articles section displays at least placeholder cards - ☐ Newsletter sign-up form is functional - ☐ All colors match new palette - ☐ Hero sphere has noticeably higher contrast

8.2 Services Page (/services)

Current State: - Hero with animated chart background - Services grid (9 services in 3×3) - "Our Areas of Expertise Include" section (6 cards) - "Explore Our Services" section (4 cards)

Required Changes: | Change | Detail | |-----|-----| | Layout | **Completely redo** — adopt Framework page style | | Content | Consolidate to a single set of services | | Remove | "Our Areas of Expertise Include" section | | Remove | "Explore Our Services" section | | Add | Individual service links → each opening a separate landing page |

New Components: - ServiceCard (simplified, links to individual page) - Individual service page template

Removed Components: - "Our Areas of Expertise Include" section (lines 206–322) - "Explore Our Services" section (lines 334–402)

Modified Components: - Services hero section - Services grid layout

Dependencies: FR-05, FR-06, FR-07, FR-08; content from client

Acceptance Criteria: - ☐ Only one unified set of services is displayed - ☐ Layout visually matches Framework page style - ☐ Each service card links to its own detail page - ☐ "Expertise" and "Explore" sections are removed - ☐ Page responsive across all breakpoints

8.3 Individual Service Pages (/services/:service-slug) — NEW

Current State: Does not exist

Required Changes: | Change | Detail | |-----|-----| | Create | New route + page template for each service | | Content | Detailed description with professional images | | Layout | Consistent template — title, description, image, CTA |

New Components: - ServiceDetailPage component (reusable template) - Service data structure/config

Dependencies: Service content + images + keywords from client

Acceptance Criteria: - [] Each service has a unique URL (e.g., /services/market-research) - [] Page includes detailed text + image(s) - [] Breadcrumb or back-link to Services landing page - [] Responsive layout - [] Proper SEO meta tags per page

8.4 Advisory Page (/advisory)

Current State: - Dedicated page displaying "Areas of Advisory" with AdvisoryGrid component - 5 advisory domains with icons

Required Changes: | Change | Detail | |-----|-----| | Remove or Replace | The entire Advisory page/route. Replace with Blog and/or Newsletter routes |

Removed Components: - Entire Advisory.tsx page

Dependencies: FR-09, FR-10, FR-11

Acceptance Criteria: - [] /advisory route no longer renders the old advisory content - [] Route either redirects to blog/newsletter or is removed - [] No broken links to old advisory page remain

8.5 Blog Landing Page (/blog) — NEW

Current State: Does not exist

Required Changes: | Change | Detail | |-----|-----| | Create | New blog landing page with article listings | | Content | Blog cards with title, excerpt, date, read more link | | Design | Follow the style referenced in PDF example links |

New Components: - BlogLandingPage - BlogCard component - BlogArticlePage (individual article view)

Dependencies: Blog content from client; backend decision (static vs. API-driven)

Acceptance Criteria: - ☐ Blog landing page displays article cards - ☐ Each card links to a full article page - ☐ Responsive grid layout - ☐ Proper SEO: unique title/description per article

8.6 Newsletter Page (/newsletter) — NEW

Current State: Does not exist

Required Changes: | Change | Detail | |-----|-----| | Create | Newsletter landing page with past issues and sign-up form | | Design | Follow the style referenced in PDF newsletter example |

New Components: - NewsletterLandingPage - NewsletterSignUpForm - PastIssueCard (if applicable)

Dependencies: Newsletter workflow (Mailchimp/SendGrid/custom), backend API

Acceptance Criteria: - ☐ Newsletter page displays sign-up form - ☐ Form validation (email required, proper format) - ☐ Success/error feedback to user - ☐ Past newsletter issues displayed if provided by client

8.7 About Page (/about)

Current State: - Firm overview section - Vision & Mission section - 3 team members: Geetika Bindana, Arun Kumar Katte, Aditya Singh

Required Changes: | Change | Detail | |-----|-----| | Update | Geetika Bindana's bio (new write-up from PDF) | | Update | Arun Kumar Katte's title to "Senior Manager - Business Development" and new bio | | Update | Aditya's entry: name changed to "Aditya Kumar", title to "Assistant Manager – Business Development", new bio | | Add | **Anfal Ahemed** — Manager, Transaction & Advisory (new member) | | Add | **Niha Maria Paul** — Marketing & Research Associate (new member) | | Photos | All team photos to be replaced with new professional photographs |

New Components: - 2 additional team member cards (Anfal, Niha Maria)

Modified Components: - All 3 existing team member blocks (bio text, titles)

Dependencies: FR-14, FR-15; professional photos pending from client

Acceptance Criteria: - [] 5 team members displayed with correct names, titles, and bios - [] Alternating layout maintained (photo left/right) - [] All photos are new professional versions - [] Bio text matches PDF exactly - [] LinkedIn links updated for all members

8.8 Footer (all pages)

Current State: - Copyright: "© 2026 Fulcrum Consulting Global" - Address, LinkedIn link, Privacy Policy

Required Changes: | Change | Detail | |-----|-----| | Copyright | Change from "2026 Fulcrum Consulting Global" to "FULCRUM CRE ADVISORS" |

Modified Components: - [Footer.tsx](#) line 45

Dependencies: None

Acceptance Criteria: - [] Footer displays "FULCRUM CRE ADVISORS" in copyright - [] All other footer content remains unchanged

8.9 Contact Page (/contact)

Current State: - Map embed + contact form (Name, Email, Message)

Required Changes: No changes requested in PDF

Acceptance Criteria: - ☐ Colors updated to match new palette - ☐ Existing form continues to work

8.10 Framework Page (/framework)

Current State: - Clean step-by-step layout (reference design for Services page)

Required Changes: No structural changes requested; serves as the design reference for the Services page redesign

Acceptance Criteria: - ☐ Colors updated to match new palette - ☐ Layout unchanged

9. Component-wise Breakdown

#	Component	File	Purpose	Current Behavior	New Behavior	Reusability	Est. Effort
1	Header/Nav	App.tsx	Site navigation	Links: Intent, About, Services, Framework, Advisory, Contact	Remove Advisory; Add Blog, Newsletter	Global	■ Medium
2	Footer	Footer.tsx	Site footer	"2026 Fulcrum Consulting Global"	"FULCRUM CRE ADVISORS"	Global	■ Low
3	HeroScene	QuantumScene.tsx	3D animated sphere	Low contrast sphere	Higher contrast sphere	Landing only	■ Medium

4	AdvisoryGrid	Diagrams.tsx	Advisory domain list	5 items with icons	Remove (no longer used)	Was in Landing + Advisory	■ Low
5	FulcrumFramework	Diagrams.tsx	Framework 4-step process	Existing design	No changes (reference for Services)	Framework + Landing	■ None
6	AnimatedChartBackground	ChartBackground.jsx	Services page hero BG	Animated chart visual	May need color updates	Services only	■ Low
7	ServiceCard	NEW	Display a service summary	Does not exist	Card with title, brief desc, link to detail page	Services page	■ Medium
8	ServiceDetailPage	NEW	Individual service page	Does not exist	Full-page template: hero, description, images, CTA	Per-service page	■ High
9	BlogCard	NEW	Blog article preview card	Does not exist	Card: title, date, excerpt, read-more link	Blog landing + Landing	■ Medium
10	BlogArticlePage	NEW	Full blog article view	Does not exist	Full article layout with content, images, sharing	Blog section	■ High
11	NewsletterSignupForm	NEW	Email capture form	Does not exist	Email input + submit → backend API	Newsletter page + Landing	■ Medium

12	TeamMemberCard	Inline in About.tsx	Team member profile	3 members, inline	5 members, could refactor into reusable component	About page	■ Medium
----	----------------	---------------------	---------------------	-------------------	---	------------	----------

10. Navigation Changes

Current Navigation Structure

Desktop: Intent About Services Framework Advisory [Contact]
Mobile: Framework Advisory About Services [Contact]

Proposed Navigation Structure

Desktop: Intent About Services Framework Blog Newsletter [Contact]
Mobile: About Services Framework Blog Newsletter [Contact]

Detailed Changes

Action	Link	Route	Notes
Remove	Advisory	/advisory	Page being removed/replaced
Add	Blog	/blog	New page
Add	Newsletter	/newsletter	New page
Keep	Intent	/ (anchor)	No change
Keep	About	/about	No change
Keep	Services	/services	No change

Keep	Framework	/framework	No change
Keep	Contact	/contact	No change

Routing Updates

Route	Action	Component
/advisory	Remove or redirect to /blog	—
/blog	Add	BlogLandingPage
/blog/:slug	Add	BlogArticlePage
/newsletter	Add	NewsletterPage
/services/:slug	Add	ServiceDetailPage

Files Impacted

- [App.tsx](#) — Route definitions (lines 172–181) and nav links (lines 76–91, 112–161)

11. Forms

11.1 Existing Contact Form (No Change)

Field	Type	Validation	Required
Name	Text input	Non-empty	Yes
Email	Email input	Valid email format	Yes
Message	Textarea	Non-empty	Yes

Success Flow: Alert "Message sent successfully" → clear fields
Error Flow: Alert "Failed to send message" or "Server error"
Backend: POST /api/contact.php → PHPMailer → geet@fulcrumconsulting.in

11.2 Newsletter Sign-up Form (NEW)

Field	Type	Validation	Required
Email	Email input	Valid email format, non-empty	Yes
Name	Text input	Optional (TBD with client)	TBD

Success Flow: - Display success message / confirmation - Optionally send confirmation email

Error Flow: - Display validation errors inline - Display server error message

Backend Requirements: - New PHP API endpoint: /api/newsletter.php - Store subscriber email (and optionally name) - Integration with email marketing platform (Mailchimp, SendGrid, etc.) OR simple database storage - Duplicate email check - CSRF protection

[!IMPORTANT] The newsletter workflow needs to be defined by the client: Will they use a third-party service (Mailchimp, Sendinblue, etc.) or a custom solution?

12. Backend Requirements

Existing Backend

Endpoint	Method	Purpose	Status
/api/contact.php	POST	Contact form submission	No change

New Backend Requirements

12.1 Newsletter Subscription API

Item	Detail
Endpoint	/api/newsletter.php
Method	POST
Input	{ email: string, name?: string }
Validation	Valid email format, non-empty, duplicate check
Success Response	{ status: "success", message: "Subscribed successfully" }
Error Response	{ status: "error", message: "..." }
Security	Input sanitization, CORS headers, rate limiting

12.2 Blog Data API (if dynamic)

Item	Detail
Endpoint	/api/blog.php
Method	GET
Purpose	Fetch blog articles (if not statically embedded)
Response	Array of blog objects: { slug, title, excerpt, date, content, image }

[!NOTE] If blog content is static (hardcoded in React), no backend API is needed for blogs. This depends on whether the client wants to add/edit blogs without developer intervention.

12.3 Email Flow

- **Contact form:** Existing flow (PHPMailer → Zoho SMTP) — no changes
- **Newsletter:** New flow needed — either direct DB storage + optional confirmation email, or API call to third-party service

12.4 Security Considerations

- Sanitize all inputs (newsletter email, contact form)
 - Rate limiting on newsletter endpoint to prevent abuse
 - CORS headers for new endpoints
 - Consider honeypot field for bot prevention on newsletter form
-

13. Database Impact

Current State

- [db.php](#) exists but is not actively used
- No database tables are currently in use

Potential New Requirements

If newsletter uses database storage:

New Table: newsletter_subscribers | Column | Type | Constraints | |-----|-----|-----| | id | INT
AUTO_INCREMENT | PRIMARY KEY | | email | VARCHAR(255) | UNIQUE, NOT NULL | | name | VARCHAR(255) |
NULLABLE | | subscribed_at | TIMESTAMP | DEFAULT CURRENT_TIMESTAMP | | is_active | TINYINT(1) |
DEFAULT 1 |

If blog uses database storage:

New Table: blog_articles | Column | Type | Constraints | |-----|-----|-----| | id | INT AUTO_INCREMENT |
PRIMARY KEY | | slug | VARCHAR(255) | UNIQUE, NOT NULL | | title | VARCHAR(500) | NOT NULL | | excerpt |
TEXT | NULLABLE | | content | LONGTEXT | NOT NULL | | image_url | VARCHAR(500) | NULLABLE | | published_at
| TIMESTAMP | NULLABLE | | is_published | TINYINT(1) | DEFAULT 0 | | created_at | TIMESTAMP | DEFAULT
CURRENT_TIMESTAMP |

[!NOTE] Database tables are only required if the client wants dynamic blog/newsletter management. For an MVP, blog articles can be hardcoded in React and newsletter can use a third-party service.

14. Content Requirements

14.1 About Section — Team Member Bios (from PDF)

1. Geetika Bindana — Director, Business Development

Geetika Bindana brings a decade of relationship building experience to the occupier real estate practice. Her strength lies in reading business priorities accurately and translating them into partnerships that hold up over time, a skill honed through stakeholder management at scale.

As Director of Business Development, Geetika leads strategic client engagements and drives growth across Fulcrum's occupier network. She is known for a commercial mindset paired with genuine collaboration, helping clients navigate shifting business needs with a partner who understands both the deal and the business behind it.

2. Arun Kumar Katte — Senior Manager, Business Development

Arun advises occupiers at the earliest and most consequential stage of their real estate journey when strategy is still being formed. His expertise spans across both the Bangalore and Hyderabad commercial real estate markets, alongside experience in industrial and logistics consulting, commercial real estate, and workplace solutions, giving him a structured, evidence-based lens on evaluating opportunities.

At Fulcrum Consulting, Arun works closely with clients to convert business requirements into actionable real estate strategy, drawing on market intelligence and commercial insight to sharpen decision-making from day one. His disciplined, execution focused approach ensures that early strategic clarity carries through to well-informed outcomes.

3. Aditya Kumar — Assistant Manager, Business Development

Aditya works at the intersection of market intelligence and client relationships, helping occupiers and developers identify opportunities that genuinely fit their business objectives not just their brief. His grounding in business development, occupier advisory, and leasing gives him a practical view across the transaction lifecycle.

At Fulcrum Consulting, Aditya supports clients through option evaluation, market insight, and deal execution, bringing a proactive, service first approach to every stage. Clients value his responsiveness and his eye for the details that make a good deal a lasting one.

4. Anfal Ahemed — Manager, Transaction & Advisory (NEW)

Anfal Ahemed specializes in coworking and managed office solutions, helping occupiers identify flexible workspace strategies that align with their operational and commercial objectives. His expertise lies in understanding evolving business requirements and delivering workplace solutions that support growth, agility, and efficiency.

As Manager of Transaction & Advisory, Anfal owns the transaction process end to end, from requirement analysis through execution, coordinating across stakeholders to keep delivery seamless. His attention to detail and grounded market knowledge give clients confidence that nothing gets lost between strategy and signed deal.

5. Niha Maria Paul — Marketing & Research Associate (NEW)

Niha Maria turns commercial real estate data into insight that clients can act on. Her focus spans across market intelligence, strategic research, and communications the discipline of knowing not just what the market is doing, but what it means for the decisions in front of a client.

At Fulcrum Consulting, Niha drives research and marketing initiatives that sharpen the firm's market presence and thought leadership, from analytical intelligence to content strategy. Her work is what turns Fulcrum's expertise into a perspective the market listens to.

14.2 Services Content

- **Status:** ■■ Pending from client
- PDF states: "The content for new services will be shared once the important keywords are shared by your team"
- Action: Development team to share SEO keywords → client provides service content

14.3 Blog Content

- **Status:** ■■ Pending from client
- Two example blog links were provided in the PDF as design references
- Actual blog articles content not yet provided

14.4 Newsletter Content

- **Status:** ■■ Pending from client
- One example newsletter link ("News") was provided in the PDF
- Newsletter workflow/platform not yet decided

14.5 Footer Content

- Change copyright from "2026 Fulcrum Consulting Global" → "FULCRUM CRE ADVISORS"
- All other footer content remains unchanged

14.6 Images

- New professional team photographs — pending from client
- Service page images — pending from client
- Blog article images — pending from client

15. Asset Requirements

Asset	Status	Format Needed	Notes
High-resolution logo	■■■ Required from client	SVG (preferred), PNG (2x/3x), or high-res WebP	Current fulcrum.webp is 18KB / low resolution
Team photo — Geetika Bindana	■■■ Pending	JPG/WebP, min 800×1000px, 3:4 aspect	PDF says "new professional photos will be shared shortly"
Team photo — Arun Kumar Katte	■■■ Pending	JPG/WebP, min 800×1000px, 3:4 aspect	Same note
Team photo — Aditya Kumar	■■■ Pending	JPG/WebP, min 800×1000px, 3:4 aspect	Same note
Team photo — Anfal Ahemed	■■■ Pending	JPG/WebP, min 800×1000px, 3:4 aspect	New team member — no existing photo
Team photo — Niha Maria Paul	■■■ Pending	JPG/WebP, min 800×1000px, 3:4 aspect	New team member — no existing photo

Service page images	■■■ Required from client	JPG/WebP, min 1200×800px	One per service detail page
Blog article images	■■■ Required from client	JPG/WebP, min 1200×800px	Featured image per article
Icons	■ Available	Lucide React	No changes to icon library
Illustrations	Not required	—	No illustrations mentioned in PDF

16. SEO Impact

Pages Affected

Page	SEO Impact
Services Landing	Title/description must be updated; heading hierarchy restructured; internal links to service detail pages
Individual Service Pages (NEW)	New indexable pages; require unique title, meta description, H1 per page; keyword-optimized content
Blog Landing (NEW)	High SEO value; article pages will be indexable; structured data (Article schema) recommended
Newsletter (NEW)	Moderate SEO; sign-up page with meta tags
Advisory	Page removed; implement 301 redirect to /blog to preserve link equity
About	Minor — content updates, no structural SEO changes
All Pages	Updated meta descriptions to reflect new color branding language

SEO Checklist

Item	Status
Unique <title> per page	Required for all new pages
Unique <meta description> per page	Required for all new pages
Single <h1> per page	Must enforce on Services redesign + new pages
Proper heading hierarchy (H1→H2→H3)	Audit during Services redesign
Internal links between services	Add cross-links from Services landing → Service detail pages
Blog article structured data (JSON-LD)	Recommended for blog articles
301 redirect for /advisory	Required to preserve SEO equity
robots.txt update	Review for new routes
Sitemap update	Generate/update after new routes added
Image alt texts	Required for all new images
Canonical URLs	Set for blog articles

17. Accessibility

Area	Requirement
Contrast	New color palette must meet WCAG AA contrast ratios (4.5:1 for normal text, 3:1 for large text). #2F4A7F on white = ~4.8:1 ■; #C9A14A on white = ~2.5:1 ■■ (may fail for small text — use only for decorative/large elements)
Typography	2-font system improves readability; ensure minimum 16px body text
Keyboard Navigation	All new interactive elements (blog cards, newsletter form, service cards) must be keyboard-accessible

ARIA Labels	Newsletter form inputs need <code>aria-label</code> or <code><label></code> associations; blog card links need descriptive text
Alt Tags	All new images (team photos, service images, blog images) must have descriptive alt text
Responsive Readability	Text must remain legible at all viewport sizes; no horizontal overflow
Focus Indicators	Ensure visible focus states on all interactive elements
Form Accessibility	Newsletter form: error messages announced to screen readers; success/error states communicated via <code>aria-live</code>

[!WARNING] The accent gold #C9A14A on white background has a contrast ratio of approximately 2.5:1, which fails WCAG AA for regular text. It should only be used for large text (18px+), decorative elements, or on dark backgrounds.

18. Responsive Requirements

Breakpoints

Device	Width	Key Behaviors
Desktop	≥1280px	Full multi-column layouts; side-by-side team photos; 3-4 column service grids
Laptop	1024–1279px	Same as desktop with tighter spacing
Tablet	768–1023px	2-column grids; team photos stack; hamburger nav
Mobile	<768px	Single column; full-width forms; stacked cards; hamburger nav

Page-specific Responsive Behaviors

Page	Desktop	Tablet	Mobile
Services Landing	Grid of service cards	2-column grid	Stacked cards
Service Detail	Side-by-side image/text	Image above text	Stacked full-width
Blog Landing	3-column article grid	2-column grid	Stacked cards
Blog Article	Centered content column	Same, narrower	Full-width padding
Newsletter	Form centered, max-width 600px	Same	Full-width form
About	Alternating photo/text layout	Stacked	Stacked, photo first

19. Risks

#	Risk	Impact	Probability	Mitigation
1	Missing service content	Cannot build individual service pages	■ High	Client to provide content with keywords ASAP; use placeholder text for development
2	Missing professional photographs	About page + service pages incomplete	■ High	Use existing photos as placeholders; deploy photo update as hotfix
3	Blog content not provided	Blog module incomplete at launch	■ Medium	Build blog framework with sample content; populate later
4	Newsletter workflow undefined	Cannot build newsletter backend	■ High	Clarify with client immediately; recommend Mailchimp for quick integration

5	Color contrast accessibility	Gold accent may fail WCAG on white	■ Medium	Restrict gold to large text/decorative; darken for small text use
6	SEO ranking drop	Removing /advisory could lose indexed links	■ Medium	Implement 301 redirects
7	Late client approvals	Development delays	■ Medium	Send client approval checklist upfront; set deadlines
8	"Deep Navy Variant" color ambiguity	#D8B66A is gold, not navy — inconsistent naming	■ Low	Clarify intended usage with client
9	Backend dependency for newsletter	PHP backend may need database setup	■ Medium	If db . php config exists but unused, may need DB provisioning
10	Routing impact on existing bookmarks	/advisory users get 404	■ Medium	Implement 301 redirect
11	3D sphere performance	Increasing contrast may affect render performance	■ Low	Test on low-end devices
12	Font audit reveals hidden fonts	Inline styles or third-party components may use additional fonts	■ Low	Run full font audit across codebase

20. Dependencies

Client Dependencies

#	Dependency	Status	Blocking
---	------------	--------	----------

1	High-resolution logo file (SVG/PNG)	■■ Not provided	Yes — Phase 1
2	Final list of services (consolidated)	■■ Not provided	Yes — Phase 3
3	SEO keywords for services	■■ Not provided	Yes — Phase 3
4	Service detail page content	■■ Not provided	Yes — Phase 4
5	Service detail page images	■■ Not provided	Yes — Phase 4
6	Blog article content	■■ Not provided	Yes — Phase 5
7	Newsletter workflow decision	■■ Not decided	Yes — Phase 6
8	Professional team photographs (5 members)	■■ "Will be shared shortly"	Partially — Phase 7
9	Confirmation of 2 fonts to keep	■■ Assumed Playfair + Inter	No (can proceed with assumption)
10	Confirmation on #D8B66A usage	■■ Ambiguous naming in PDF	No (can proceed with assumption)

Developer Dependencies

#	Dependency	Notes
1	Tailwind CSS config update	Must be done before any component work
2	CSS variables update	Must align with Tailwind config
3	Router setup for new routes	Before building new pages
4	Backend DB provisioning (if needed)	For newsletter storage

Design Dependencies

#	Dependency	Notes
1	Blog page design approval	Reference examples provided; exact design TBD
2	Newsletter page design approval	Reference example provided; exact design TBD
3	Individual service page template design	Must match Framework page style

Content Dependencies

- All service page content depends on SEO keywords being shared first
- Blog articles need to be written/curated by client
- Newsletter past issues need to be provided (if applicable)

Asset Dependencies

- 5 new professional photographs
- High-resolution logo
- Service-specific images
- Blog article featured images

21. Open Questions

[!IMPORTANT] The following questions must be resolved before or during development. Do NOT assume answers.

#	Question	Context	Impact
1	Which 2 fonts should be kept?	PDF says "Keep only 2 fonts." Currently using Playfair Display + Inter. Are these the correct ones?	Font audit, possible redesign work
2	What is the intended use of #D8B66A "Deep Navy Variant"?	The color is actually a warm gold, not navy. Where exactly should it be used vs. #C9A14A?	Color system implementation
3	What is the final consolidated list of services?	Currently 3 separate sections with overlapping services. Which specific services should remain?	Services page build is blocked
4	Should the blog be static (hardcoded) or dynamic (CMS/API)?	Static = faster to build; Dynamic = easier to maintain. Client needs to decide.	Architecture decision, backend effort
5	What newsletter platform/workflow will be used?	Options: Mailchimp, SendGrid, Sendinblue, custom DB. Affects backend implementation.	Backend architecture
6	Should the newsletter form collect just email, or also name/preferences?	Simple vs. detailed sign-up	Form design, backend schema
7	What happens to the /advisory route?	Should it 301 redirect to /blog, show a "page not found," or simply be removed?	SEO preservation
8	Are the example blog/newsletter links design references or content sources?	PDF provides hyperlinks to external blogs and a newsletter. Are these for design inspiration only?	Content sourcing
9	Should the blog/newsletter sections also appear on the Landing page?	PDF says "replace Advisory with blog and newsletter." Does this mean on the landing page, the dedicated page, or both?	Landing page layout

10	What LinkedIn URLs should be used for Aditya Kumar, Anfal Ahemed, and Niha Maria Paul?	Only Geetika and Arun have LinkedIn URLs in the current code. Aditya's link is #.	About page links
11	Should the copyright year be dynamic or static?	Current: "2026" hardcoded. The change to "FULCRUM CRE ADVISORS" — should it include a year? E.g., "© 2026 FULCRUM CRE ADVISORS"	Footer implementation
12	Are there any SEO keywords the development team should provide to the client?	PDF states content for services "will be shared once the important keywords are shared by your team." Who is responsible?	Content workflow
13	Should the Intent nav link on the home page be removed or renamed?	"Intent" links to / — it's not mentioned in the change request but may conflict with new Blog/Newsletter nav items	Navigation clarity
14	What is the content structure for individual service pages?	How much content per page? Number of images? Should there be CTAs, related services, or testimonials?	Page template design
15	Should the "Areas of Advisory" section on the Landing page also be removed?	PDF clearly says remove it. But should anything replace it on the landing page, or just remove the section?	Landing page layout
16	Is there a preferred design for the blog cards?	The PDF provides example links but no explicit design mockup	Design effort

22. Acceptance Criteria

Global Acceptance Criteria

#	Criteria	Measurable
AC-01	All pages display the new high-resolution logo	Visual inspection on desktop + mobile
AC-02	All text colors use #2F4A7F as primary	Computed style check
AC-03	All accent colors use #C9A14A	Computed style check
AC-04	Only 2 fonts are loaded across the entire site	Network tab / font audit
AC-05	No broken links exist across the site	Automated link checker
AC-06	All pages load within 3 seconds on 3G	Lighthouse audit
AC-07	All pages pass Lighthouse accessibility ≥ 90	Lighthouse audit

Feature-Specific Acceptance Criteria

Feature	Criteria
Services Landing	Single unified service list; layout matches Framework page style; each card links to detail page
Service Detail Pages	Unique URL per service; contains title, description, image, CTA; proper SEO tags
Blog Landing	Displays blog article cards; each links to full article; responsive grid
Blog Article	Full content displayed; proper heading hierarchy; shareable URL
Newsletter	Sign-up form functional; email validation works; success/error messages display; subscriber stored
Advisory Removal	/advisory route redirected or removed; no references in navigation; no broken links

About Page	5 team members with correct bios; alternating layout; LinkedIn links working
Footer	Copyright reads "FULCRUM CRE ADVISORS"; all other content unchanged
Hero Sphere	Visually higher contrast than before; no performance degradation

23. Development Roadmap

Phase 1 — Branding Updates

Item	Detail
Objective	Update brand colors, logo, and font system globally
Tasks	Update Tailwind config colors; update CSS variables; replace logo asset; audit font usage; update hero sphere colors
Deliverables	Updated <code>tailwind.config.js</code> , <code>index.css</code> , logo replacement, font audit report
Dependencies	High-resolution logo from client
Estimated Complexity	■ Medium (2–3 days)

Phase 2 — Hero & Landing Page Improvements

Item	Detail
Objective	Enhance hero sphere contrast; remove Advisory section from landing
Tasks	Adjust <code>QuantumScene.tsx</code> materials/lighting for higher contrast; remove <code>AdvisoryGrid</code> from <code>Landing.tsx</code> ; clean up landing page sections

Deliverables	Updated hero visual; cleaned landing page
Dependencies	Phase 1 (colors)
Estimated Complexity	■ Medium (2 days)

Phase 3 — Services Module Redesign

Item	Detail
Objective	Redesign Services landing page; consolidate service list
Tasks	Redesign Services.tsx layout to match Framework style; remove "Expertise" and "Explore" sections; create ServiceCard component; add links to individual service pages
Deliverables	Redesigned Services landing page
Dependencies	Phase 1 (colors); final service list from client
Estimated Complexity	■ High (3–4 days)

Phase 4 — Individual Service Pages

Item	Detail
Objective	Create dedicated landing pages for each service
Tasks	Create ServiceDetailPage template; set up dynamic routing (/services/:slug); populate content; add SEO meta tags
Deliverables	N service detail pages (N = number of final services)
Dependencies	Phase 3; service content + images + keywords from client
Estimated Complexity	■ High (4–5 days)

Phase 5 — Blog Module

Item	Detail
Objective	Implement blog landing page and article pages
Tasks	Create BlogLandingPage; create BlogCard component; create BlogArticlePage; set up routing; add to navigation; optionally build blog API
Deliverables	Blog landing page; blog article template; blog data structure
Dependencies	Blog content from client; static vs. dynamic decision
Estimated Complexity	■ High (4–5 days)

Phase 6 — Newsletter Module

Item	Detail
Objective	Implement newsletter page with sign-up form
Tasks	Create NewsletterPage; create NewsletterSignupForm; build backend API; integrate with email service; add to navigation
Deliverables	Newsletter page; sign-up form; backend endpoint; email integration
Dependencies	Newsletter workflow decision from client; backend setup
Estimated Complexity	■ High (3–4 days)

Phase 7 — About Section Updates

Item	Detail
------	--------

Objective	Update team member bios and add 2 new members
Tasks	Update Geetika, Arun, Aditya bios; add Anfal and Niha Maria entries; replace photos when available; update LinkedIn URLs
Deliverables	Updated About page with 5 team members
Dependencies	Professional photos from client
Estimated Complexity	■ Medium (2 days)

Phase 8 — Footer & Navigation Finalization

Item	Detail
Objective	Update footer copyright; finalize navigation changes
Tasks	Update Footer.tsx copyright text; remove Advisory from nav; add Blog + Newsletter to nav; update mobile menu; set up 301 redirect for /advisory
Deliverables	Updated footer; finalized navigation
Dependencies	Phases 5, 6 (blog/newsletter pages must exist)
Estimated Complexity	■ Low (1 day)

Phase 9 — QA Testing & Polish

Item	Detail
Objective	Complete testing, fix issues, final polish
Tasks	Cross-browser testing; responsive testing; form testing; SEO audit; accessibility audit; performance optimization; link check; regression testing

Deliverables	QA report; bug fixes; production-ready build
Dependencies	All phases complete
Estimated Complexity	■ Medium (3–4 days)

Timeline Summary

P	Name	Est. Duration	Cumul
1	Branding Updates	2–3 days	2–3 days
2	Hero & Landing	2 days	4–5 days
3	Services Module	3–4 days	7–9 days
4	Service Detail Pages	4–5 days	11–14 days
5	Blog Module	4–5 days	15–19 days
6	Newsletter Module	3–4 days	18–23 days
7	About Section	2 days	20–25 days
8	Footer & Navigation	1 day	21–26 days
9	QA Testing	3–4 days	24–30 days
	Total Estimated	24–30 working days	

[!NOTE] Phases 5 and 6 (Blog + Newsletter) can be developed in parallel by separate developers, reducing total calendar time by ~4 days.

24. Technical Task Breakdown

#	Task Name	Priority	Frontend Impact	Backend Impact	Complexity	Components Affected	Pages Affected	Files Likely to Change	Testing Required	Status
T01	Update Tailwind brand colors	■ High	All components	None	■ Low	All	All	tailwind.config.js	Visual regression	■ TODO
T02	Update CSS custom properties	■ High	All styles	None	■ Low	All	All	index.css	Visual regression	■ TODO
T03	Replace logo asset	■ High	Header	None	■ Low	Header (App.tsx)	All	public/assets/images/, App.tsx	Visual check all pages	■ TODO
T04	Audit & enforce 2-font rule	■ Medium	Typography	None	■ Low	All text elements	All	index.html, tailwind.config.js, various components	Font check, new tab check	■ TODO
T05	Increase hero sphere contrast	■ Medium	Hero visual	None	■ Medium	HeroScene	Landing	QuantumScene.tsx	Visual check + performance	■ TODO
T06	Remove Advisory section from Landing	■ High	Landing layout	None	■ Low	AdvisoryGrid	Landing	Landing.tsx	Landing page renders correctly	■ TODO

T07	Add Blog preview section to Landing	■ High	Landing layout	None	■ Medium	BlogCard (new)	Landing	Landing.tsx, new component	Landing page layout	■ TODO
T08	Add Newsletter CTA to Landing	■ High	Landing layout	None	■ Medium	Newsletter (new)	CTA Landing	Landing.tsx, new component	Form submission	■ TODO
T09	Redesign Services landing page	■ High	Full redesign	None	■ High	ServiceCard (new)	Services	Services.tsx	Layout, responsive	■ TODO
T10	Remove "Expertise" section	■ High	Content removal	None	■ Low	None	Services	Services.tsx	No broken layout	■ TODO
T11	Remove "Explore Our Services" section	■ High	Content removal	None	■ Low	None	Services	Services.tsx	No broken layout	■ TODO
T12	Create ServiceCard component	■ High	New component	None	■ Medium	ServiceCard	Services	New file	Component render, responsive	■ TODO
T13	Create ServiceDetailPage template	■ High	New page	None	■ High	ServiceDetailPage	New pages	New file	Page render, SEO, responsive	■ TODO
T14	Set up service dynamic routing	■ High	Routing	None	■ Medium	App routes	App.tsx	App . tsx	Route navigation	■ TODO
T15	Create service data structure	■ High	Data config	None	■ Low	Data file	Services	New data file	Data accuracy	■ TODO

T16	Create BlogLandingPage	■ High	New page	None	■ High	BlogLandingPage	New Page page	New file	Page render, responsive	■ TODO
T17	Create BlogCard component	■ High	New component	None	■ Medium	BlogCard	Blog, Landing	New file	Component render	■ TODO
T18	Create BlogArticlePage	■ High	New page	Optional API	■ High	BlogArticlePage	New Page page	New file	Full article render, SEO	■ TODO
T19	Set up blog routing	■ High	Routing	None	■ Medium	App routes	App.tsx	App . tsx	Route navigation	■ TODO
T20	Create blog data structure	■ Medium	Data config	Optional API	■ Medium	Data file	Blog	New file or API	Data accuracy	■ TODO
T21	Create NewsletterPage	■ High	New page	API needed	■ High	NewsletterPage	New Page page	New file	Page render, form	■ TODO
T22	Create NewsletterSignupForm	■ High	New component	API needed	■ Medium	NewsletterSignupForm	Newsletter, Landing	New file	Form validation, submit	■ TODO
T23	Build newsletter backend API	■ High	None	New endpoint	■ Medium	None	None	backend/api/newsletter.php	API testing, error handling	■ TODO
T24	Newsletter email service integration	■ Medium	None	Integration	■ Medium	None	None	Backend config	Integration testing	■ TODO
T25	Update Geetika Bindana bio	■ High	Content	None	■ Low	Team member block	About, Landing	About . tsxContent Landing . tsx	Content accuracy	■ TODO

T26	Update Arun Kumar Katte bio + title	■ High	Content	None	■ Low	Team member block	About	About .tsx	Content accuracy	■ TODO
T27	Update Aditya entry (name, title, bio)	■ High	Content	None	■ Low	Team member block	About	About .tsx	Content accuracy	■ TODO
T28	Add Anfal Ahemed team member	■ High	New block	None	■ Medium	Team member block	About	About .tsx	Layout, responsive	■ TODO
T29	Add Niha Maria Paul team member	■ High	New block	None	■ Medium	Team member block	About	About .tsx	Layout, responsive	■ TODO
T30	Replace team photos	■ High	Assets	None	■ Low	Image assets	About	public/assets/images/	Image display	■ TODO
T31	Update footer copyright text	■ Low	Content	None	■ Low	Footer	All	Footer .tsx	Visual check	■ TODO
T32	Remove Advisory from navigation	■ High	Navigation	None	■ Low	Header nav	All	App .tsx	Nav renders correctly	■ TODO
T33	Add Blog link to navigation	■ High	Navigation	None	■ Low	Header nav	All	App .tsx	Nav link works	■ TODO
T34	Add Newsletter link to navigation	■ High	Navigation	None	■ Low	Header nav	All	App .tsx	Nav link works	■ TODO

T35	Set up 301 redirect for /advisory	■ Medium	Routing	None	■ Low	Routes	App	App.tsx, Redirect vercel.js	workletify	■ TODO
T36	Remove Advisory.tsx page	■ Medium	Code cleanup	None	■ Low	Advisory page	None	Delete Advisory.tsx	No broken imports	■ TODO
T37	Remove AdvisoryGrid component (if unused)	■ Low	Code cleanup	None	■ Low	AdvisoryGrid	None	Diagrams.tsx	No broken imports	■ TODO
T38	Update AnimatedChartBackground colors	■ Medium	Visual	None	■ Low	AnimatedChartBackground	SetBackground	AnimatedChartBackground.jsx	Visual check	■ TODO
T39	SEO meta tags for new pages	■ Medium	SEO	None	■ Medium	None	All new pages	New page files	SEO audit tool	■ TODO
T40	Cross-browser testing	■ Medium	Testing	None	■ Medium	All	All	None	Manual testing	■ TODO
T41	Responsive testing	■ Medium	Testing	None	■ Medium	All	All	None	Device testing	■ TODO
T42	Accessibility audit	■ Medium	Testing	None	■ Medium	All	All	Potential fixes	Lighthouse, axe	■ TODO
T43	Performance optimization	■ Medium	Optimization	None	■ Medium	All	All	Various	Lighthouse	■ TODO

25. QA Checklist

UI Testing

- ☐ All pages render without console errors
- ☐ Logo appears in high resolution across all pages
- ☐ All text uses the new primary color #2F4A7F
- ☐ All accents use the new gold #C9A14A
- ☐ Only 2 fonts are loaded (verify via DevTools Network tab)
- ☐ Hero sphere has visibly higher contrast
- ☐ Services page displays single unified service list
- ☐ Services page layout matches Framework page style
- ☐ "Expertise" section is removed from Services page
- ☐ "Explore Our Services" section is removed from Services page
- ☐ Blog landing page displays article cards correctly
- ☐ Newsletter page displays sign-up form
- ☐ About page shows 5 team members with correct bios
- ☐ Footer copyright reads "FULCRUM CRE ADVISORS"
- ☐ All hover states/animations work correctly
- ☐ All transitions are smooth (no jank)

Responsive Testing

- ☐ Desktop (1920px, 1440px, 1280px)
- ☐ Laptop (1366px)
- ☐ Tablet Portrait (768px)
- ☐ Tablet Landscape (1024px)
- ☐ Mobile (375px, 390px, 414px)
- ☐ Services grid responsive behavior correct
- ☐ Blog cards stack properly on mobile
- ☐ Newsletter form full-width on mobile
- ☐ Team member cards stack on mobile
- ☐ Navigation hamburger menu works on mobile
- ☐ No horizontal overflow on any viewport

Navigation Testing

- ☐ "Advisory" link is removed from desktop nav
- ☐ "Advisory" link is removed from mobile nav
- ☐ "Blog" link appears in both desktop and mobile nav
- ☐ "Newsletter" link appears in both desktop and mobile nav

- ☐ All navigation links route to correct pages
- ☐ Active link states work correctly
- ☐ /advisory redirects properly (301)
- ☐ Browser back/forward navigation works

Forms Testing

- ☐ Contact form still works (submit, success, error)
- ☐ Newsletter form: empty submit shows validation error
- ☐ Newsletter form: invalid email shows validation error
- ☐ Newsletter form: valid submission succeeds
- ☐ Newsletter form: success message displayed
- ☐ Newsletter form: error message displayed on server error
- ☐ Newsletter form: duplicate email handled gracefully

Validation Testing

- ☐ Email validation (newsletter form)
- ☐ Required field validation (newsletter form)
- ☐ Input sanitization (no XSS via form fields)

- ☐ Rate limiting works on newsletter endpoint

Backend Testing

- ☐ Contact API still functional
- ☐ Newsletter API: valid POST returns success
- ☐ Newsletter API: invalid email returns error
- ☐ Newsletter API: missing fields returns error
- ☐ Newsletter API: CORS headers correct
- ☐ Newsletter API: duplicate email handled
- ☐ Email delivery verification (if confirmation email)

Cross-Browser Testing

- ☐ Chrome 90+ (Windows, Mac)
- ☐ Firefox 90+ (Windows, Mac)
- ☐ Safari 15+ (Mac, iOS)
- ☐ Edge 90+ (Windows)
- ☐ Mobile Chrome (Android)
- ☐ Mobile Safari (iOS)

Performance Testing

- ☐ Lighthouse Performance score ≥ 85
- ☐ First Contentful Paint $< 2s$
- ☐ Largest Contentful Paint $< 3s$
- ☐ No layout shift (CLS < 0.1)
- ☐ Images optimized (WebP, lazy loading)
- ☐ Font loading optimized (font-display: swap)

SEO Verification

- ☐ Each page has unique `<title>`
- ☐ Each page has unique `<meta description>`
- ☐ Each page has single `<h1>`
- ☐ Proper heading hierarchy (no skipped levels)
- ☐ All images have alt text
- ☐ Internal links between services pages
- ☐ Blog articles have structured data
- ☐ `robots.txt` allows new pages

- ☐ 301 redirect for /advisory works
- ☐ Canonical URLs set for blog articles
- ☐ No orphan pages

Accessibility Verification

- ☐ Color contrast meets WCAG AA (4.5:1 normal text)
- ☐ All interactive elements keyboard-accessible
- ☐ Focus indicators visible
- ☐ Form labels/ARIA attributes present
- ☐ Alt text on all images
- ☐ Screen reader tested (NVDA/VoiceOver)
- ☐ No ARIA errors (axe-core audit)

Regression Testing

- ☐ Landing page: all remaining sections render correctly
- ☐ Framework page: unchanged
- ☐ Contact page: form still works
- ☐ Privacy page: unchanged

- ☐ Footer appears on all pages
 - ☐ Header/nav appears on all pages
 - ☐ Mobile menu works on all pages
 - ☐ Scroll behavior works correctly
 - ☐ 3D hero animation doesn't break other sections
-

26. Client Approval Checklist

The following items should be reviewed and approved by the client **before** development begins:

Content Approvals

- ☐ Final consolidated list of services confirmed
- ☐ SEO keywords for services provided
- ☐ Service detail page content reviewed and approved
- ☐ Blog article content provided or writing timeline confirmed
- ☐ Newsletter workflow/platform decision made
- ☐ Team member bios verified for accuracy (typos, titles, etc.)
- ☐ Footer copyright text confirmed: "FULCRUM CRE ADVISORS"

Design Approvals

- ☐ New color palette confirmed: #2F4A7F, #C9A14A, #D8B66A
- ☐ #D8B66A usage clarified (decorative gold or different purpose?)
- ☐ 2 fonts confirmed (Playfair Display + Inter assumed)
- ☐ Services page layout style approved (Framework page reference)
- ☐ Blog page design direction approved
- ☐ Newsletter page design direction approved
- ☐ Individual service page template design approved

Asset Approvals

- ☐ High-resolution logo provided
- ☐ Professional team photographs provided (5 members)
- ☐ Service page images provided
- ☐ Blog article featured images provided

Technical Approvals

- ☐ Newsletter backend approach approved (third-party vs. custom)
- ☐ Blog data approach approved (static vs. database)

- ☐ /advisory redirect strategy approved
- ☐ Navigation structure approved (which links, what order)

Timeline Approvals

- ☐ Development timeline reviewed and agreed
- ☐ Content delivery deadlines set
- ☐ Review/feedback cycles scheduled

27. Information Required From Client

[!CAUTION] The following items are **blocking or partially blocking** development. These must be provided before the corresponding phase can begin.

#	Item	Blocking Phase	Priority	Status
1	High-resolution logo (SVG or high-res PNG/WebP)	Phase 1	■ Critical	■■ Not received
2	Confirmation of 2 fonts to keep (Playfair Display + Inter?)	Phase 1	■ Medium	■■ Not confirmed
3	Clarification on #D8B66A usage — where should this color appear vs. #C9A14A?	Phase 1	■ Medium	■■ Ambiguous
4	Final consolidated service list	Phase 3	■ Critical	■■ Not received

5	SEO keywords for service pages	Phase 3	■ Critical	■■ Not received
6	Service detail page content (per service)	Phase 4	■ Critical	■■ Not received
7	Service page images (per service)	Phase 4	■ Critical	■■ Not received
8	Blog article content (titles, body, images)	Phase 5	■ Critical	■■ Not received
9	Blog design reference — are the example links design references or content sources?	Phase 5	■ Medium	■■ Not confirmed
10	Newsletter workflow decision — Mailchimp? SendGrid? Custom?	Phase 6	■ Critical	■■ Not decided
11	Newsletter design reference — is the example link a design reference or content source?	Phase 6	■ Medium	■■ Not confirmed
12	Professional team photographs (all 5 members)	Phase 7	■ Critical	■■ "Will be shared shortly"
13	LinkedIn profile URLs for Aditya Kumar, Anfah Ahmed, Niha Maria Paul	Phase 7	■ Medium	■■ Not provided
14	Copyright line format — should year be included? "© 2026 FULCRUM CRE ADVISORS" or just "FULCRUM CRE ADVISORS"	Phase 8	■ Low	■■ Not clarified

15	Navigation order preference — where should Blog and Newsletter appear in the nav?	Phase 8	■ Medium	■■ Not specified
16	Brand guidelines document (if exists)	Phase 1	■ Low	■■ Not requested

End of Product Requirements Document

Document prepared for: Fulcrum Consulting development team
Next steps: Client to review and provide approvals + missing items from Section 27
Development can begin on: Phase 1 (Branding) once logo is received; Phase 7 (About bios) can start immediately with placeholder photos
